the Jersey Shore Beaches

Fantastic Restaurant/ Music Scene

Neptune City is Monmouth County's best kept secret
A little town often confused with Neptune Township, but very
much it's own borough. Very few people know that our town is
on the Shark River with a magnificent park that allows river
access. Very close to the beach without the crowds and
congestion. Definitely a town for those who like peace and quiet
at home, but want to be a bike's ride to the beach activities and
the restaurants of the Shore.
